PROFIE OVERVIEW

I'm a Full-Stack Developer with hands-on experience building real-world applications, including AI chatbots, a WebRTC-based video conferencing platform, and a stock trading system. I enjoy turning ideas into functional, scalable products using the MERN stack along with strong fundamentals in C, C++, and R for analytical thinking and problem-solving. Having participated in and won ideathons, I thrive in fast-paced, collaborative environments where creativity and execution matter equally. I approach challenges with logical reasoning, stay calm under pressure, and value teamwork and leadership while continuously learning and improving.

PROJECTS

- **UrbanMind AI – Smart Urban Mobility Platform**
Built an AI-powered platform for smart parking and traffic optimization, integrating an intelligent assistant with voice-based input, and designed to serve both citizens and city planners for efficient urban mobility management.
- **LegalMitra – An AI-Powered Multilingual Legal Form Assistant**
Multilingual AI-powered legal form assistant built using the MERN stack with speech integration. Enables users to fill legal documents using voice input and generates structured, downloadable forms.
- **Navora AI – Real-Time Intelligent Chatbot Platform**
AI-based conversational chatbot platform designed for intelligent, real-time interactions. Focused on clean UI, scalable backend architecture, and seamless user experience.
- **AureX – Full-Stack Stock Trading Simulation Platform**
Full-stack stock trading web application with real-time data handling, secure authentication, and portfolio management features. Designed to simulate practical trading workflows.
- **Shanova- Meet – WebRTC-Based Video Conferencing Application**
Full-stack video conferencing platform built using WebRTC and the MERN stack. Supports real-time video calls, meeting creation, and seamless peer-to-peer communication.

ACHIVEMENTS

- **Microsoft Ideathon – Bhasha Bandhu (Runner-Up)**
Secured Runner-Up position for presenting an innovative, technology-driven solution demonstrating strong problem-solving and execution skills.
- **Ideathon 2026 (2nd-runnerup) - DSCE**
resented an AI-based smart city solution addressing traffic & parking challenges
- **Master of Ceremonies – International Congress (DSCE)**
Hosted and coordinated proceedings for an international academic event, demonstrating leadership, communication, and stage management skills.

EDUCATION

B.E. in Computer Science Engineering

Dayananda Sagar College of Engineering, Bengaluru

2023 – 2027 (Pursuing) | CGPA: 8.6

Pre-University Course (PUC)

BKG PU College , Sandur

2021 – 2023 | Percentage: 91.50%

ICSE (10th Grade)

Sandur Residential School , Sandur

Batch - 2021 | Percentage: 94.83%

SKILLS

- Languages: C, C++, JavaScript, R
- Frontend: HTML, CSS, React.js
- Database: MongoDB , MySQL
- Tools & Concepts: Git, Github ,WebRTC
- AI & Development Tools: OpenAI APIs

LANGUAGES

- English
- Hindi
- Kannada
- Urdu

HOBBIES

- Public Speaking & Event Hosting
- Exploring Emerging Technologies
- Sketching & Singing

CERTIFICATIONS

- Full-Stack Web Development
- Data Structures & Algorithms
- Information Security: APT Defenses
- Amazon Web Services (AWS) - (In Progress)
